

Natural Disasters Project

- Section 1: Plate Tectonics and Natural Disasters
 - Relationship between plate tectonics, earthquakes, and volcanoes.
 - Map of seismic (earthquake) and volcanic activity.
 - Models and explanation of types of plate boundaries/faults.
- Section 2: Volcanoes
 - Types of volcanic eruptions
 - Landforms and volcanoes
 - Hotspots and volcanoes
- Section 3: Earthquakes
 - Causes of seismic activity
 - Description of an epicenter.
 - Compare and contrast the types of seismic waves.
